

Guiding Services

StorlaksFishing guiding services are aimed at individual fly fishers or small parties who seek expert advice and guidance in their pursuit of Atlantic Salmon.

My services are bespoke and can be designed and packaged to match requirements.

My areas of expertise are fully aligned with my experience as a Fly Fisherman, a Guide and a River Manager.

My passion is chasing big silver salmon

My objective is to add value to your experience. This could be access to a new river or beat or catching a salmon of your lifetime. Or it might be learning and enhancing one's skills and knowledge, or simply having fun and sharing good times on the riverbank.
